COMMERCIAL.

A SALE of a large block of Oahu Railway bonds was effected this week on the Stock and Bond Exchange. These bonds are the last lot to be sold by the company and the money thereby derived will be expended for the construction of the Oahu division of the railroad. The amount of bonds placed was in the neighborhood of \$100,000, but the price could not be ascertained, but it is generally understood among the brokers to have been about par. Other extensive developments are planned by the Hilo Railway Company management, and it will not be many months before the Big Island can boast of a splendidly equipped railroad system.

Oahu Railway & Land Co. bonds were strong at the opening of the week and sales were effected at 105.

A sale of \$20,000 of these bonds took place on yesterday's board at 104. There was a large demand for the bonds at this figure, but there are few, if any, offered in the market for sale.

Waiulua Agricultural Company 5 per cents have been listed on the local Bond and Stock Exchange and are offered at 102½. Sales were made at 103.

It was learned from a large shareholder in the Waiulua Agricultural Company that there will be another issue of bonds in addition to the \$500,000 already out. Whether this would be for a quarter of a million dollars or a half million, to make up the full \$1,000,000 authorization by the directors, could not be ascertained.

Government 5 per cents had a bid of 96; 10½ offered for Oahu Sugar bonds. Ewa bonds were par bid. First American Savings Bank shares were offered at par. No quotation made on First National Bank stock. The quotations of the miscellaneous stocks have not changed over those made last week. Wilder's Steamship is offered at par; Inter-Island at 105. Oahu Railway at 105. Among the mercantiles, Brewer & Co. is offered at 435.

Waiulua was the active stock this week. In the neighborhood of 2,000 shares were sold by a local broker. The stock closed at sales at 100.

Oahu Sugar shares were sold at 145. Manager Ahrens' estimate for this year's crop is 20,000 tons, and he believes that it will be a few hundred tons higher. The plantation is well along in grinding, having over 14,000 tons off up to the present time. The manager states that he has acreage growing for over 20,000 tons next year.

Ewa shares remained about the same as last week, 27½ bid, 27¼ asked. Hawaiian Agricultural was sold at 300. Hawaiian Sugar is offered at 40, bid 38; Honolulu is 175 asked. Hoku 232½ asked; Koloa 175 asked; Olowalu 145 asked; Pepee-keo 180 asked; Waimanalo 195 bid; Wailuku 377½ asked. A number of Pioneer Mill shares were sold at 102; Oolaka dropped from sales at 16½ to 15. Yesterday a large block was offered at that figure, the closing bid was 15½. Kona Sugar was offered as low as 25; the best bid was 5. Waimoa is 85 bid, 90 asked. Among the assessables, McBryde is offered at 9, bid 8, with 17 paid in. Kihel paid up sold at 11½. Olua assessable is offered at 4½, 8 paid in, paid up shares being offered at 14½.

The present prices in nearly all the sugar stocks are attracting attention of the sugar stock buyers. Some believe that the stocks are selling far below their value, even with the labor situation considered. When the news of the recent tumble in Hawaii reaches the Coast a good many buying orders may be expected by the brokers on early steamers.

EDWARD POLLITZ COMING ON THE ZEALANDIA.

Edward Pollitz, the San Francisco stock broker, has written a local broker that he will arrive in Honolulu on the Zealandia to make an investigation of the sugar stock situation in Honolulu. The coming of Mr. Pollitz is believed by brokers to be a sign that he intends making further investments in Hawaiian securities. Pollitz has the reputation of having left with the local brokers the largest checks ever issued to their organization in exchange for blocks of gilt-edged stocks.

PORTO RICAN PLANTERS HAVE A LABOR PROBLEM.

Porto Rican planters are becoming alarmed at the present rate of emigration of the poor people of that island to other countries, and fear for the consequences in a few years from now. Jorge Bird Arias, in an article which appears in the Louisiana Planter of June 1, believes that money will be plentiful enough in Porto Rico in a short while to enable the planters to renew their devastated acres and that there is a great future for the sugar industry there. He deprecates the rush of Porto Ricans to other countries and declares that the Porto Rican planters will feel the consequences in the near future, and then they will also have a labor problem to solve as the planters have had in Hawaii for the past year. The correspondent says:

In regard to the output of present sugar crop, I confirm my opinion that it will not be much larger than last year's. At the beginning of the crop the estimates were 100,000 tons, and since, \$5,000, 80,000 and 70,000 tons have been talked about.

The weather has been very favorable, with occasional showers that have not prevented the manufacturing work. The number of acres in this section is more or less the same as for the past two years, the planters not being able to push ahead for lack of money. The lack of credit and scarcity of money on the island is the great problem for the present, and as it is at the same time the cause of emigration, the consequences of which will be felt in the near future, we shall have that problem to solve.

Our banks are all commercial banks that can afford little or no help to the planter, as they only loan money at short terms and require personal guarantee. It is surprising how the small planters can resist these difficulties and hardships year after year! To show you their present situation, I will tell you that some of them, who have good pieces of property, had to borrow money last year under following conditions from some local merchants:

Twelve per cent interest per year, compromising their crop at 2 cents less than regular market prices on every gallon of molasses, and 10 cents less on every 100 barrels of sugar. If to this fact you add that for the first time in 400 years the Porto Ricans have been compelled to seek work for an honest living in foreign lands, you will form an exact idea of the real situation of this fertile island, and it must be kept in mind that our laborer is attached to his country and family in such a way that while they can get enough to cover the most pressing necessities of life they will never abandon them.

What will the American planters think of the situation of their Porto Rican brothers? I know that they would not be willing to work under such circumstances, as many an American farmer has told me that in order to walk straight, and with the head raised, a farmer must find money at less than 6 per cent. But the thing is to be in the "hole" and then is the time to act. Our planters, like a shipwrecked sailor, are in hopes of seeing the shade of a distant sail of help, and knowing that misery and ruin awaits them, they, like the sailor, will struggle with the waves of misfortune and adversity as long as there remains life and energy for the battle of life.

BIG SUGAR IMPORTS DURING APRIL.
Assistant Appraiser Michael Nathan of the sugar division at the Appraiser's Stores reported yesterday that the receipts of sugar at the port of New York for the month ending April 30 amounted to over \$9,000,000, representing a duty value to the Government of over \$3,000,000.

This, Appraiser Nathan stated, was the largest amount of sugar imported for any one month in the history of the customs service of the port of New York.—New York Journal of Commerce.

OAHU RAILWAY DIVIDEND TODAY OF \$20,000.

The Oahu Railway Company will pay its regular monthly dividend of ½ per cent on the new capitalization of \$4,000,000. The amount to be divided among the stockholders will be \$20,000. The company formerly paid a monthly dividend of 1 per cent, but the capitalization was then only \$2,000,000.

RAPID TRANSIT RAILWAY MACHINERY ABOUT READY.
Next week the wheels of the power house machinery of the Rapid Transit & Land Company will be turned by steam for the first time. The cross-street rails have been received and are being placed at the intersections, and will be set in a short time. The steel bridge across the Nuuanu stream at the end of the Hotel street line to connect with Aala Park and King street, is about finished for the railroad company.

CONTRACT LET FOR ERECTION OF SACRED HEART CONVENT.
The contract for the erection of the school for the Convent of the Sacred Heart, on Fort street, has been let to the Hawaiian Engineering & Construction Company. Their bid was \$31,384.05.

GUM PICKERS AT WORK.

Picking spruce gum and selling it to chewing gum manufacturers is a source of income for a great many men in the Adirondacks and other Northern forests—guides and small farmers—while others made it a business the year through. The gum appears on the tree trunk like drops of wax. The gatherer, armed with a long pole, on the end of which is fastened a can and a sharp chisel, cut loose the chunks of gum, which fall into the can and are transferred to a basket or bag. The gatherers in winter will travel on snowshoes ten or fifteen miles through the forest, sleeping at night in some old hunter's deserted shack. There are three kinds of spruce in the Adirondacks—red, black and white. The best gum is gathered from the sapwood of the white spruce. The rarest of the gum is the "blister," which is translucent, and turns blue after being chewed. After being scraped, washed and brightened, it sells for \$1.50 a pound. There is a coarser grade, composed of blister scrapings, mixed with particles of bark. Placed on trays of cotton cloth in a steam tank, the gum is drawn out, and yields the producer 50 cents a pound, forming the ordinary chewing gum of commerce. Some manufacturers adulterate the gum with paraffin, rosin and chicle.—Country Gentleman.

WRONG.
Phrenologist—Your bump of destructiveness is very large. Are you a soldier or a puglist?
Subject—Neither. I'm a furniture mover.

Auction Sale
—OF—
